"I think Nuremberg is a
dreadful idea! All cons
should be in Betelgeuze!
AHHH GRRR!
If it comes to Nuremberg
we will protest this!"

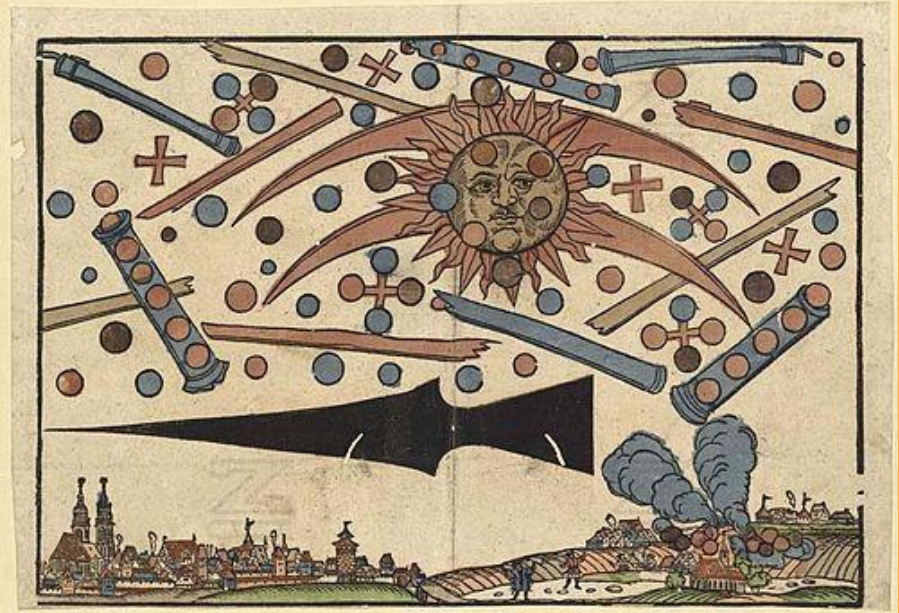

It all started in Nuremberg...

In the morning of April 14, 1561, at daybreak, between 4 and 5 a.m., a dreadful apparition occurred on the sun, and then this was seen in Nuremberg in the city, before the gates and in the country – by many men and women. At first there appeared in the middle of the sun two blood-red semi-circular arcs, just like the moon in its last quarter. And in the sun, above and below and on both sides, the color was blood, there stood a round ball of partly dull, partly black ferrous color. Likewise there stood on both sides and as a torus about the sun such blood-red ones and other balls in large number, about three in a line and four in a square, also some alone....

After the initial invasion
Nuremberg became the
capital of a gigantic alien
empire...
